Starting At

Paint Correction is for anyone that wants their vehicle to look top-notch. Paint Correction removes light blemishes, scratches, swirls and water spots. The 1, 2 or 3 Step Process refines the paint's surface creating a smooth, blemish free, fresh look. Paint Correction is required prior to receiving a Ceramic Coating Service.

CERAMIC PROTECTION

Ceramic Coatings provide unparalleled hydrophobic protection while having mirror gloss and deep shine. Acting as a shield, the protective layer guards against environmental elements, insect acid, road salt, bird droppings, oxidation, damaging UV-radiation and more.

Starting At

Interior Ceramic Coatings provide 100% breathable hydrophobic protection enabling all textiles resistant to liquid, dirt, stains and UV-radiation without altering the material.

Liquids immediately respond to the protective hydrophobic layer by forming beads and resisting the textile.
